

## Assembling the Angular Pedestal Base

### THANK YOU FOR YOUR PURCHASE

We would like to offer our sincere thanks for choosing a Solaire Infrared Grill. We believe them to be the finest grills available, and are confident that you will enjoy your new grill for years to come. By carefully following these assembly instructions and the operating instructions found in your care and use manual, you will be assured of getting maximum performance and longevity from your Solaire grill.

Should you require any assistance while assembling your grill, please contact your dealer or call Solaire at (562) 696-8718.

### TOOLS NEEDED FOR ASSEMBLY

Assembly of your Solaire grill requires only a Phillips head screwdriver and a large adjustable wrench (for making gas supply connections). You will also need some pipe thread compound or teflon tape for sealing gas lines.

Assembly of your Solaire grill should be done on a firm, level surface. Work on the packing box or scrap carpet to protect the stainless steel from scratches.

### STEP 1

Begin by turning the rectangular base on its side and attaching the four casters with screws as shown. The two casters with the locking feature should be installed at the back of the base.

### STEP 2

Set the base upright. Locate the main panel and attach to base with screws as shown below. Be careful not to bend the panel once it is attached.

### STEP 3

Fasten one of the side panels to the base as shown, ensuring that the straight portion of the panel is flush with the rear of the base. Fasten the side panel to the main panel. Repeat for the other side.

### STEP 4

With help from another person, carefully set the grill onto the finished cart. Fasten with four screws as shown below.

### STEP 5

Attach the Regulator to the manifold supply line coming from the grill. Be sure to use pipe thread compound or teflon tape on the threads. Carefully tighten with the wrench, being sure not to overtighten. Make sure regulator is set for proper gas type as shown on pg. 16 of the care & use manual. Perform gas hookup according to instructions in the care and use manual (pg. 4 for LP; pg. 5 for natural gas).

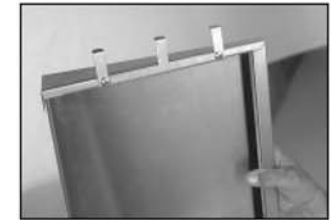

### STEP 6

Fit rear panel into place and fasten with screws.

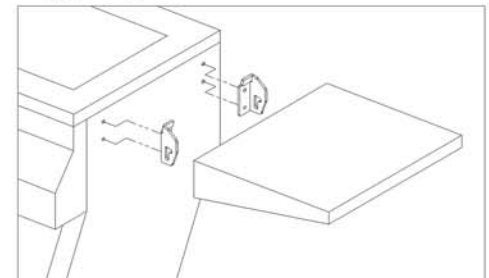

### STEP 7

Attach tool holder to right shelf with screws as shown below.

### STEP 8

Attach side shelf as shown. Repeat for shelf on the opposite side of the grill. Your Solaire Grill is complete. Happy Grilling!

### FOR YOUR SAFETY

PLEASE READ YOUR CARE & USE MANUAL THOROUGHLY BEFORE USING YOUR GRILL FOR THE FIRST TIME. IT CONTAINS IMPORTANT INFORMATION ON LEAK TESTING, SAFE OPERATION, CLEANING AND TROUBLESHOOTING OF YOUR NEW GRILL.
